

MACK GRANITE SLEEPER

# BUILT TO PUSH THE LIMITS

The new Mack® Granite™ Sleeper is designed to stretch the boundaries of how you work. No matter how rugged or isolated your jobsite, this Granite model is ideal for remote operations. You get the proven and powerful performance of the Mack Granite you've come to expect, and with the sleeper configurations, you gain the flexibility to rest comfortably onsite and return to work with more energy. With the Granite Sleeper you save extra wear and tear on the truck and the driver. So no matter where your work environment takes you, go with confidence.

# MACK GRANITE SLEEPER

**MACK MP™ ENGINES:** The proven, fuel-efficient and clean-running MP7 and MP8 engines deliver an impressive horsepower range from 325 to 505 HP. And with superior low-end torque, they deliver the muscle you need to conquer the workday.

**MAXITORQUE® ES TRANSMISSIONS:** Every Mack Maxitorque ES transmission is designed to deliver superior performance. With the industry's only triple-countershaft design; revolutionary shifttable, multi-speed reverse capabilities; standard, one-piece aluminum casings; and more PTO mounting options than any other transmission; Mack Maxitorque transmissions are a breed apart.

**DURABLE AXLES:** The C150/151 Axle Carriers deliver increased efficiency, higher ratings, improved durability and quieter operation. They are engineered with new lower numeric ratios, allowing it to run at reduced RPMs while at cruise speeds, boosting fuel economy. They are designed to handle the relentless punishment of demanding vocational operations.

**“D” SHAPED FUEL TANK:** A full selection of aluminum or steel fuel tanks are available up to 116 gallons in a unique tank design that holds more fuel in the same space.

**GALVANIZED STEEL CAB:** Granite's durable galvanized steel cab is mounted on airbags and shocks and stabilized with sway bars, so while the truck soaks up the rough stuff, the driver stays comfortable, rested and productive.
